Wills who? The royal prince we really have the um, red hots for is **Prince Harry** and we're kicking ourselves for not having been at the [Andaz San Diego](#) over the weekend when Harry decided to let loose from his Apache military helicopter training.

[Us Magazine](#) reports that the Prince hit up the hotel's Ivy rooftop bar (Ivy is a nod to the hotel's former name) with 20 of his friends and started guzzling Absolut Vodka, Red Bull and beer. Then they moved to the hotel's outdoor pool deck where they watched a rugby match in a private cabana.

That may sound kind of tame but the [Daily Mail](#) reports (with a couple of photos to boot) that Harry got cozy with a brunette in a VIP room at the Ivy as well. We can only wonder if they later crept into [one of the 10 sexiest hotel rooms alive](#).

Now we can't wait for Harry to hit Las Vegas. [VegasChatter](#), be on the lookout!
